

CITY OF LODI COUNCIL COMMUNICATION

AGENDA TITLE: Approve Specifications and Authorize Advertisement for Bids for Lodi Transit Station Concrete Pavement Project, 28 South Sacramento Street

MEETING DATE: January 16, 2013

PREPARED BY: Public Works Director

RECOMMENDED ACTION: Approve specifications and authorize advertisement for bids for Lodi Transit Station Concrete Pavement Project, 28 South Sacramento Street.

BACKGROUND INFORMATION: This project consists of replacing 7,600 square feet of concrete pavement, driveway, sidewalk and wheelchair ramps within the Transit Station, installing 1,130 square feet of reinforced concrete pavement with an asphalt concrete overlay within Sacramento Street, and other incidental and related work, all as shown on the plans and specifications for the project.

The existing concrete pavement at the Lodi Transit Station bus driveway/loading area has developed extensive cracks and settlement. Numerous patches have been attempted; however, permanent repairs are required. The patches and cracks have created safety and ADA access issues requiring replacement of the concrete pavement. The project also includes installing reinforced concrete pavement within Sacramento Street at the passenger loading island to replace the failing street pavement.

The specifications are on file in the Public Works Department. The planned bid opening date is February 27, 2013. Project completion is expected prior to Summer 2013.

FISCAL IMPACT: Decreased maintenance costs at the Lodi Transit Station and on Sacramento Street associated with these improvements.

FUNDING AVAILABLE: Funding will be identified at project award.
